Hello Marty,

Thanks for sending this information over. Do you have an expected timeline for these projects?

I have cc'd the clerk treasurer to add you to next month's agenda.

Les, Can you please review this and let us know if we need any additional information prior to discussion at next month's meeting?

thanks,

The YMCA camp is adding some new buildings to their site, and as a result the design wastewater flows will increase. Currently, the wastewater from the YMCA camp is discharging to underground gravity sanitary sewer that outlets to the St. Paul wastewater treatment facility. Thus, we are seeking approval to increase the design flows from the YMCA camp. Below is an outline of design flows for which we are requesting approval to discharge to your WWTP. The seasonal use is not changing and therefore it should be noted that these flows will only occur when camp is in session during summer months, and during remainder of year flows will be significantly less.

| Occupants | Total | GPD | Daily Flow |
|---|---|---|---|
| Campers | 364 | 20 | 7,280.00 |
| Staff | 20 | 20 | 400.00 |
| | | | |
| | | Total | 7,680.00 GAL/2 hrs |

Please do not hesitate to contact me ahead of the meeting to discuss any questions you may have. We would be happy to meet with you and your WWTP operator Les Day ahead of the meeting to review in more detail and answer any questions you may have. If this seems like a reasonable request, please let me know what dates/times work and we would be happy to meet at your office or other desired location.

Thank you and look for to hearing back from you to confirm we are on your next regular scheduled meeting.

Sincerely,

**Martin K. Spees, PE** (IN & MI)
